HASAN ESAM MAHMOOD ABDULHAMEED

Cybersecurity Graduate | Security Analyst | Cyber Defense

+967 770 348 564 • hasan123essam@gmail.com • Taiz, Yemen • linkedin.com/in/hassan-essam-a6475b372

PROFESSIONAL SUMMARY

Cybersecurity graduate with practical experience in cyber defense, network traffic analysis, DoS detection, malware analysis, vulnerability assessment, and system hardening. Developed an integrated cyber-physical defense system combining security monitoring, alerting, AI-assisted malware analysis, and structural analysis of PE files. Strong interest in SOC, information security, security operations, and defensive cybersecurity.

EDUCATION

Bachelor of Science in Cybersecurity **Graduation: 2026**

National University, Faculty of Engineering — Taiz, Yemen

FEATURED PROJECT & PRACTICAL EXPERIENCE

Cybersecurity Engineer & Defense System Developer (Innovation Project) **2025 – 2026**

Taiz, Yemen

- **Designed & Implemented:** Built an integrated cyber-physical defense system dedicated to detecting and mitigating Denial of Service (DoS) attacks.
- **AI & Malware Analysis:** Applied Artificial Intelligence algorithms and structural analysis techniques to support malware detection and deep analysis of PE (Portable Executable) files.
- **Defensive Hardening:** Executed network traffic analysis, vulnerability assessments, and system hardening procedures to enhance system defense reliability.
- **Incident Response & Monitoring:** Developed security monitoring and alerting concepts for identifying suspicious activity and supporting effective incident response.
- **Conference Presentation & Award:** Presented the research and prototype at the 4th Student Research & Innovation Conference (4SRIC 2025–2026) at Taiz University. Won **1st Place (Golden Award)** in the *Innovation Prototypes* category.

TECHNICAL SKILLS

Cybersecurity: DoS/DDoS detection, malware analysis, PE file analysis, vulnerability assessment, system hardening, security monitoring, incident response fundamentals.

Networking & Systems: Network traffic analysis, TCP/IP fundamentals, Windows, Linux, network security fundamentals.

Security Concepts & Tools: IDS/IPS concepts, SIEM/SOC fundamentals, OWASP security concepts, MITRE ATT&CK fundamentals, virtualization.

Programming & Databases: Python fundamentals, PHP, SQL/database fundamentals, web application security.

Other Skills: Computer maintenance, technical documentation, analytical problem-solving.

CERTIFICATES & TRAINING

- **CompTIA A+ Windows Firewall (9-Hour Course)** — Mind Luster | Sep 2026
- **Basic of Digital Marketing (3-Hour Course)** — AlqadasiBiz Solutions | Mar 2026
- **Introduction to CISSP Security Assessment, Testing & Security Operations** — Simplilearn SkillUp | Jan 2026
- **ChatGPT for Cybersecurity** — Simplilearn SkillUp | Jan 2026
- **Accounting Diploma** — Additional Qualification
- **International Computer/IT License (ICDL)** — Additional Qualification
- **Hardware & Computer Maintenance Training**

AWARDS & RECOGNITION

- **1st Place (Golden Award)**, Innovation Prototypes Category — 4th Student Research & Innovation Conference (4SRIC 2025–2026), Taiz University.
- **Official Recognition Certificate** for contribution to the award-winning research project | June 2026.

LANGUAGES

- **Arabic:** Native
- **English:** Intermediate

CAREER INTERESTS

Cybersecurity Analyst • SOC Analyst • Security Operations • Information Security • Cyber Defense • Vulnerability Assessment
